Allan Martínez González

Junior Full Stack Developer | React • Node.js • Express • MongoDB

allan.mz.gz@gmail.com | +52 870 172 20 35 | LinkedIn | GitHub | Torreón, Coahuila, Mexico

PROFESSIONAL SUMMARY

Junior Full Stack Developer with hands-on experience building applications using React, Node.js, Express, and MongoDB. Skilled in responsive interfaces, REST API integration, JWT authentication, protected routes, and data management with Mongoose. My projects combine frontend and backend development with a background in design, process improvement, and user-focused problem-solving. Seeking to contribute to a software engineering team while continuing to grow professionally.

TECHNICAL SKILLS, TOOLS & LANGUAGES

Frontend: JavaScript (ES6+), React, React Router, Vite, HTML5, CSS3, Flexbox, CSS Grid, BEM, responsive design, DOM.
Backend & databases: Node.js, Express.js, MongoDB, Mongoose, REST APIs, third-party API integration, Fetch API, async programming, error handling.
Authentication & validation: JWT, protected routes, Celebrate/Joi, CORS, form validation.
Tools: Git, GitHub, npm, Webpack, VS Code, MongoDB Compass, Oxlint; TypeScript (fundamentals).
Design & languages: Photoshop, Illustrator, branding, visual UX | Spanish (native), English (intermediate), German (A1).

SELECTED PROJECTS

PivotHunt | Job Search Platform — TripleTen Capstone Project, 2026
- **Built a React and Vite application with React Router and The Muse API integration to retrieve and display job listings.**
- **Implemented job search and filters by title, company, and location; saved/removed jobs; and loading, API error, and empty states.**
- **Developed an Express backend with MongoDB and Mongoose, using separate frontend/backend repositories and Git/GitHub workflows.**

Tech stack: React, JavaScript, Vite, React Router, Node.js, Express, MongoDB, Mongoose, REST APIs, Git/GitHub.

Around the U.S. | Full Stack Web Application — TripleTen, 2026
- **Migrated the application to React and built reusable components for cards, modals, and forms, including profile and avatar editing, likes, and card deletion.**
- **Built a Node.js/Express API with MongoDB and Mongoose; added JWT-based sign-up/sign-in, protected routes, Celebrate/Joi validation, CORS, and centralized error handling.**

Tech stack: React, Node.js, Express, MongoDB, Mongoose, JWT, REST APIs, JavaScript, Git/GitHub.

BeeUX Platform | Full Stack Business Platform — Personal Project, 2026–Present
- **Developing a marketing agency platform with a React/Vite frontend and Node.js/Express backend connected to MongoDB.**
- **Built reusable services, pricing, benefits, and CTA sections; prepared the architecture for future Stripe payments, multilingual support, and client onboarding.**

Tech stack: React, Vite, Node.js, Express, MongoDB, Git/GitHub.

PROFESSIONAL EXPERIENCE

BeeUX Digital Marketing | Graphic Designer & Digital Marketing | Torreón, Mexico | 2025–Present
- Design brand identities and digital assets, translating business requirements into user-centered visual solutions.

Busher Cocdril's | Operations & Entrepreneurship | Torreón, Mexico | Feb 2024–May 2025
- Coordinated teams of up to 20 and improved inventory and operational processes, reducing material waste by 25%.

EDUCATION & TRAINING

- B.S. in Software Development Engineering (in progress) | UVEG | Oct 2024–Present
- Full Stack Web Development Bootcamp | TripleTen | Oct 2025–Oct 2026 (completed)
- Engineering Degree in Industrial Engineering | Universidad ITACA | Completed Feb 2021
- B.A. in Graphic Design | Universidad Iberoamericana Laguna | Completed Dec 2008
